Question: do we want to know where people live and is it enough to state as above or should we just ask what street they live on?

Marilyn made some notations on neighborhood that I think are valuable to discuss.....See below.

The short survey asking the neighborhood is a bit dicey. Some remember the "original" names of the neighborhoods and are put off if you do not use them. Some I would say have an ego attached to their naming. You can probably leave off Ligona ok (that is where Maxine lives). Two names that are used fairly regularly Lovett's field (I think that's the name near Willard) and Pleasantdale (Anthoine west "for a bit") My Grandfather lived on Grove Ave-that is considered Pleasantdale). The bowling Alley is also considered Pleasantdale, I think. The western side of the city has many sub developments. I don't think we are as fussy. We will find out!
