Prom is a special occasion. Be present for the memories by not using drugs & alcohol.

Share your plans with your parents & ask them to be available so you can contact them if plans change.

Be clear with yourself & your prom date about what you want for the night.

Make sure you have someone you can call or text to get home safely or get help.

The police are partners in keeping young people safe. Don’t be afraid to anonymously contact your local police department if you know about a party involving drugs and alcohol.
