Subject: Bridge Lighting, Casco Bay Bridge # 5900, Work Identification Number #021890.00

Dear Ms. Scully:

The Maine Department of Transportation is currently working on the final design for a bridge lighting replacement project for the Casco Bay Bridge over the Fore River. Advertisement of the subject project for competitive bids is scheduled for January 2019. We estimate that the construction would begin approximately in April 2019, and be completed by August 2019.

The project is further described as follows:

Lighting Improvements: Casco Bay bridge #5900 on the Portland / South Portland town line, carrying Rte 77 over the Fore River.

The Contractor will be required to perform the work at night and will maintain a minimum of one 11'-0" wide travel lane in each direction.

We hereby request that you provide a copy of this notice to all municipal officials, employees and boards with responsibilities for utility and/or land-use planning/permitting, and that you post this letter on any municipal public bulletin boards, media outlets and/or municipal websites as a public meeting will not be held regarding this project unless specifically requested by the municipality. A copy of the Preliminary Design Plans are attached for your reference.

Should you have any questions, concerns or other areas of interest, we would appreciate your comments and input. Please feel free to contact me at (207)-624-3336 with any questions or concerns.

Sincerely,

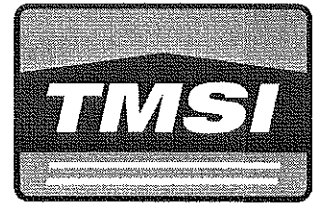

Joseph Stilwell PE, Project Manager
Maine Department of Transportation
