For applications submitted prior to July 6, 2020:

The Ordinance enabling Chapter 33 within the Zoning Ordinance (Sec. 27-33) which establishes provisions to process temporary outdoor services permit applications must proceed through the Ordinance adoption process, which involves a 1st reading, a 2nd reading with 7-days’ notice, and a 20-day period for any petitions to be filed that challenge the City Council’s approval of the ordinance. The ordinance adoption schedule currently anticipates the 20-day waiting period expiring on July 6, 2020.

Recognizing the immediate need for the relief provided by the Sec. 27-33 provisions, the Ordinance allows permits to be applied retroactively to June 1, 2020, which allows City staff to process permits immediately upon first reading with the express understanding that any action improvements done based on the issuance of a temporary outdoor services permit before the waiting period (July 6, 2020) closes has expired is at the permit holder’s own risk, as facts, circumstances and the law may change prior to that date.

By signature below, I acknowledge that I have read, understand, and agree to the statement above regarding applications submitted prior to July 6, 2020 for a temporary outdoor service permit.
