ADDENDUM NO. 3

Cummings Road Rehabilitation

Bid 30-16

City of South Portland and
Town of Scarborough, Maine

May 3, 2016

1. The proposed stamped concrete treatment in the existing raised median on Cummings Road shown on Plan Sheet 22 shall be 4" thick.

2. Bid Item 20, Construct Stormwater Treatment Area TP-6, should be changed to read TP-7.

3. Bid Item 25, Esplanade Box Filter, EBF-7 should be changed to read EBF-6.

4. Sheet 5 of 39 – Esplanade Box Filters shall have the following minimum dimensions: top to bottom of structure, 4'-0"; top to invert of structure, 3'-6"; top of media to invert of structure, 2'-6".

5. Supplemental Specification Section 604.2, Esplanade Box Filter, shall be revised as follows:

   Under 604.2.40, C. Biofiltration Design, Paragraph 1, change “… and not exceed 100 inches per hour…” to “… and at least 100 inches per hour…”

   Under 604.2.40, D. Sediment Removal, Paragraph 1, change “… rate of 100”/hr…” to “… rate of at least 100”/hr…”

   Under 604.2.40, D. Sediment Removal, add a third paragraph: “3. Additional minimum pollutant removal rates shall also be met; these include: Total Phosphorus 60%, Total Nitrogen 40%, Total Dissolved Zinc: 55%, Dissolved Cooper: 45% and Total Petroleum Hydrocarbons >90%.”

   Under 604.2.40, add a paragraph: “E. Testing: Contractor shall supply field testing by an independent entity that has been verified and approved by a nationally recognized Best Management Practice Evaluation Organization (TARP, TAPE, etc.).”

6. Attached is a Revised Plan Sheet 5 of 39, which modifies some of the dimensions and elements of the Esplanade Box Filters.

7. Attached is Revised Plan Sheet 11 of 39, which shows the location of a buried gas line at the intersection of Cummings Road and Running Hill Road.
