Under this law, information contained electronically in the CVR and any information or reports generated by the system are confidential, and may be accessed only by state election officials or municipal election officials for the purposes of election and voter registration administration, except as otherwise provided in Title 21-A §196-A, and detailed in # 2 below.

   A. **Individual Voter Report** – §196-A(1)(A) – Available to the voter requesting the voter’s own data. The requestor must provide voter name and date of birth. Available only as a printed, free report.

   B. **Party/Campaign Use Voter File** – §196-A(1)(B) – Available for party activities, candidate and issue campaigns, “get-out-the-vote” activities related directly to a campaign, and to individuals elected or appointed to and currently serving in a municipal, county, state or federal office, but for use only for the official’s authorized activities, not to turn over to another entity. Contains the following data: voter’s name, residence & mailing address, year of birth, enrollment status, electoral districts, voter status, date of registration, date of change, voter record #, voter participation history and special designations (UOCAVA and/or township). The electronic file has a per record fee; the paper equivalent – the Alpha Voting List – has a per page fee.

   **Candidates** must specify name and office. **Persons or entities** requesting the data for issue campaigns or get-out-the-vote activities related directly to a candidate or issue campaign must list the candidate or the specific **Maine** ballot issue or currently circulating petition effort, the planned activities, and the specific time span or dates.

   - For purposes of this law, “candidate” is defined in 21-A MRSA §1(5), to include any person who has filed a petition for nomination under 21-A MRSA §§335, 336, 354 or 355 and has qualified as a candidate by either procedure, or any person who has received contributions or made expenditures or has given consent for any other person to receive contributions or make expenditures with the intent of qualifying as a candidate.

   - For purposes of this law, “campaign” is defined in 21-A MRSA §1052 (1), to include activities relating to the promotion or defeat of a citizen’s initiative or people’s veto referendum, a constitutional amendment, legislation expressly conditioned upon ratification by a referendum vote under the Constitution, the ratification of bonds, and any county or municipal referendum.

The requestor must specify the enrollment status, electoral districts, and Voter Participation History (VPH) requested. VPH data, if requested, is free with the purchase of voter data in electronic format under this section of 196-A; however, it is provided in a separate file from the voter data. VPH obtained in printed form has a per page fee. VPH is the report of voter record #s for voters who participated in one or more elections. The requestor may select up to 2 elections and must specify the elections for VPH by the date and name of the election (e.g. November 7, 2017, Referendum Election). Requests for VPH for any State election may be made to an individual municipality for that municipality’s data, or to the Secretary of State (Division of Elections) for statewide or district-wide data. State Election law requires all municipalities to assign the VPH for each voter for any State election. Municipalities may assign municipal election VPH at their discretion – it is not required by law. Requests for VPH for any municipal election must be made directly to the municipality.
Voter File Update Request – Available only when a Party/Campaign Use Voter File has been purchased; the requestor is entitled to up to 11 free updates, upon written request, during the 12-month period following the initial purchase of voter records so long as the requestor remains eligible under §196-A(2)(B) to obtain/use CVR data. No more than one update may be obtained during a 30-day period. The requestor may specify any additional Voter Participation History requested.
