Attendance

Mike Fletcher

Moya Bell

Anton

Richard

Richard suggests we go around to talk about preferences- he prefers in person meetings. Zoom is less personal although its easier for some but you miss a lot by doing that. Some peoples comforts level are different. His preference

Mike would prefer remote or hybrid . Only concern would be making sure everyone knows what we would prefer

Anton likes the physical meeting however I think hybrid should be offered due to peoples comfort levels. Concerned about vaccinations at open mic and having too many people here. People from last year loved the remor option.

Moya definitely hybrid, enjoy in person. You can get a lot from in person andmore efficient. Enjoy the aspect but good to have hybrid for theres reason you cant make it on time. Hybrid would be the choice. Group public forums would like vaccination cards.

Courtney speaks up regarding her opinion on remote s hybrid and really prefers being in person.

Anton makes a motion to go hybrid

Richard second but want to make sure gives enough notice if not coming in person so no one is sitting here alone. He would like to encourage people to come into open mic in person.

All in favor.

Courtney let everyone know about workshop

Mike motion to adjourn

Richard second
