

March 8, 2023

Dear Property Owner/Resident,

The City of South Portland will soon begin work on the Cottage Road Pedestrian and Safety Improvements and Mill and Overlay project. The project involves the reconstruction of sidewalks and curbs, installation of new storm drain structures and pipes, and street repaving in your neighborhood. The limits of the proposed work are shown on the map below.

City Council approved award of the contract to Shaw Brothers Construction on January 17, 2023. Shaw Brothers is expected to begin work on March 20th and be completed prior to October 20th. The City is working proactively with the contractor to minimize inconvenience to residents during construction. The contractor's working hours will typically be 7:00 am to 7:00 pm, Monday through Friday, with limited exceptions.

Information regarding the project is located on the City of South Portland's web site at <https://www.southportland.org/cottageroad2023>.

We will keep the website updated as the project progresses to help keep you informed of progress and the schedule of upcoming work. The City of South Portland has contracted the engineering firm of Sebago Technics, Inc. to provide a full time on-site inspector to oversee the construction.

Questions or concerns related to the project can be directed to the following individuals:

Lacey Kremer, P.E.
Civil Engineer
City of South Portland
